To Whom it May Concern

Elliot & Elliot Roofing performed a complete roofing project in Concord on 35 buildings and our pool house with composition shingles during the summer of 2008. The project went smoothly and was completed ahead of schedule and under budget with the use of a project manager. We chose composition shingles and had all new gutters and downspouts installed. Every last detail was completed per the contract.

Additionally, Elliot & Elliot Roofing completed roofing in several phases over the past 5 years on 20 buildings in Walnut Creek. The project consisted of a mixture of flat roofs and composition shingle roofing and we chose not to replace the gutters and downspouts. Any and all follow-up issues have been handled expediently and to the satisfaction of our homeowners and the Board of Directors.

We are please to recommend Elliot & Elliot as a preferred contractor.

Sincerely,

Caroline McCormick, CEO
