To whom it may concern,

This is to confirm to any interested party in need of a good roofing contractor that Elliot and Elliot Roofing Service of Oakland CA. is here highly recommended.

As Construction Manager these past 20 years and working for primarily common interest developments (CIDs), I need a good, reliable and competitively priced contractors. I've had the pleasure of working with Elliot and Elliot Roofing and will continue to include them in any roof project bidding I'm involved with.

Elliott and Elliot Roofing has proven to be very organized and efficient when working on projects. This I believe is why they seem to always be competitively priced and still provide a quality product.

Interested parties can contact me directly about Elliott and Elliot if they choose.

Thank you
Rick Montalvan
